

AS YOU KNOW, CONTROLLING TOURETTE'S IS NOT THIS EASY.

We invite those aged 18 to 64 who have a diagnosis of Tourette syndrome to see if they may qualify for the T-Forward Study. The primary purpose of this research study is to determine the effectiveness, safety, and tolerability of an investigational medication for Tourette syndrome. All who qualify will receive study-related medication, medical exams, and laboratory tests at no cost.
