

Tourette Syndrome Awareness 2011

Dear School Principal,

I am writing to request our school's participation in a State wide effort to raise awareness about Tourette Syndrome.

Tourette Syndrome (TS) is a neurological disorder characterized by tics. Tics are involuntary, sudden, repetitive movements or vocalizations. Individuals affected by TS are often picked on, made fun of, and mocked. As humans we often distance ourselves from what we don't understand.

I am asking your permission to help our school get one step closer through the power of knowledge. For Tourette Syndrome Awareness Month (May 15-June 15, 2011) I would like to create an informative bulletin board about Tourette Syndrome for our students, faculty, and visitors to view. The Pennsylvania Tourette Syndrome Alliance will be providing me with materials to be posted.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

Name
